arms.

with its
whiskers.

DO YOU KNOW?

UNDERWATER PREDATORS

b Look at pages 10–11. Read the sentences. Write T (true) or F (false).

- 1 Octopuses catch food with their arms.
- 2 They put the food in their mouths with their arms.
- 3 They have ten long arms.
- 4 They have very big teeth.
- 5 They look for food in the sand with their arms.
- 6 They cannot hold things and walk across the sea floor with their arms.

3

a Work in small groups. Look at pages 14–17. Read and write *can* or *cannot* to fill each gap. The first one has been done for you.

Predators ① *cannot* easily catch these fish because they are swimming together. Tuna swim together because they ② stop small fish from swimming past them. The tuna ③ catch and eat the small fish. Puffins ④ fly and swim. They go under the water and find fish. Penguins live in or near the sea. They ⑤ fly. Penguins ⑥ catch fish and squid because they ⑦ swim well.

b Work in your groups. Look at pages 18–25. Read the questions. Write the answers. The first one has been done for you.

- 1 How does a giant trevally hunt seabirds from the water? *It jumps*
- 2 What is an orca?
- 3 Where do sperm whales hunt?
- 4 What do humpback whales open under the water?
- 5 What do sharks use to hunt?
- 6 Which sea animal stings things?
