## BIRDS AND INSECTS

### Ants video (Book pages 10–11)

- <0:06> These Australian weaver ants are making their home.  
<0:29> This ant's larva can help her with her job.  
<0:39> The larva makes silk.  
<0:55> The silk from the larva keeps the home together.

### Hummingbird video (Book pages 16–17)

- <0:09> Hummingbirds drink from flowers.  
<0:21> This hummingbird has 2000 small drinks a day.  
<0:33> He flies from flower to flower, but there are not many flowers here.  
<0:43> He must keep flying to find more flowers.

### Bowerbird video (Book pages 20–21)

- <0:07> How can the flame bowerbird find a mate?  
<0:15> He has to show how good he is at building something.  
<0:26> This is a good place to build a home.  
<0:38> He uses sticks and dirt.  
<1:26> He only has to add the last pieces.  
<1:45> He is happy now!
