MAMMALS

Bears video (Book pages 10–11)

- <0:12> This bear is looking for food for her cubs.
<0:17> Soon, they must go into their winter sleep.
<0:23> The bears need fat to live for five months without food.
<0:40> The salmon are back from the sea.
<0:50> The bear is watching them under water.
<0:54> She's trying to find the best place to catch them.
<1:00> She starts running quickly down the river ...
<1:25> ... and catches a fish for her cubs.

Blue Whale video (Book pages 22–23)

- <0:07> The blue whale is the largest animal in the sea, but it eats one of the smallest.
<0:40> Krill are tiny marine animals that look like shrimp. They are smaller than your little finger.
<0:50> The blue whale must swim very far to find enough krill to eat.
<0:59> It opens its mouth and a lot of water comes in with the krill.
<1:52> The whale pushes the water out with its tongue, but the krill stay in its mouth.

Chimpanzee video (Book pages 24–25)

- <0:06> This chimpanzee is looking for food in the tree.
<0:14> He's clever: he gets a stick to help him catch an animal that is hiding in the tree.
<0:32> He pushes it into the tree and pulls it out to look for blood.
<0:45> If there is blood on the end, then there is an animal in the tree.
<1:21> A small mammal comes out of the tree.
<1:27> He found something! He pulls out a small mammal, kills it, and eats it.
