

DO YOU KNOW? TINY TECHNOLOGY

Video Transcripts

Level 4

Can you see the gears moving? What are they doing? (Book page 15)

| <0:09> | Look at the metal gears. They are turning round. |
|--------|---|
| <0:14> | Can you see the teeth in the gears? They help the gears to work together. |
| <0:23> | These are the gears in a clock. Some gears are smaller and some are bigger. |
| <0:30> | The gears turn the hands on the front of the clock. |

What can you see through the microscope? (Book page 19)

| <0:09> | You can see the tiny things through a microscope. Do you know what this is? |
|--------|---|
| | It is part of a plant. |
| <0:19> | This scientist is looking at bacteria. |
| <0:26> | Some microscopes have more than one lens. |
| <0:33> | The scientist can choose the right lens to see the bacteria well. |
