

# DO YOU KNOW?

## DINOSAURS AND ANCIENT ANIMALS

Video  
Transcripts

Level 3

### **Dinosaurs video 1 (Book page 13. How big are the baby dinosaurs?)**

- <0:10> These dinosaurs are called Spinosaurus. They grew up to 15 metres long.  
<0:18> Scientists are finding fossils that are very small - just 1.78 metres long!

### **Dinosaurs video 2 (Book page 21. What happened to the dinosaurs after the asteroid hit Earth?)**

- <0:10> 66 million years ago, a big asteroid hit the Earth. It came very quickly.  
<0:25> When it hit the Earth, the asteroid made a huge explosion. It got very hot.  
<0:34> It was too hot for life, so many dinosaurs died.

### **Dinosaurs video 3 (Book page 27. Would you like this job? Why or why not?)**

- <0:10> Palaeontologists study ancient life. They study dinosaurs, plants, fish and even prehistoric humans.  
<0:23> Palaeontologists study fossils of very old creatures and people. They have to be very careful.  
<0:36> You can be a palaeontologist too!
