

# DO YOU KNOW?

## MOONS

Video  
Transcripts

Level 3

### **Moons video 1 (Book page 11. How old is the Moon?)**

- <0:10> Our Moon is very old. It is 4.53 billion years old! It is almost as old as Earth.  
<0:23> Some scientists think that 4.525 billion years ago, Theia hit Earth.  
<0:33> Our Moon orbits Earth now!

### **Moons video 2 (Book page 21. What did Galileo Galilei use to see Jupiter's moons?)**

- <0:10> Galileo Galilei was an Italian astronomer. He made a new kind of telescope.  
<0:20> Galileo Galilei used his telescope to see...  
<0:39> Io, Europa, Ganymede and Callisto.
